

Total cost of methane depending on the proportion of blended synthetic methane (including grid tariffs and distribution costs) – costs of synthetic methane given for the import option "PV from North Africa" (ct₂₀₁₇/kWh_{methane})

Figure 20

Source: PV; interest rate: 6%

Note: 0% – only fossil natural gas; 100% – only synthetic natural gas

* Costs for generating methane (final energy (LHV), without levies/taxes)
