

Table 6: Selected indicators for the buildings sector

Country	Specific energy consumption, new residential buildings (kWh/m2a)	RES share, new residential buildings (%)	Annual renovation rate, public buildings (%)
BG	n.a.	15 %	5 %
GR	18-88 kWh/m2a depending on climate zone	n.a. 60 % for water heating at least 30% for heating and cooling nationally, including existing buildings	3 %
HR	34 kWh/m2a	n.a.	3 % ¹
RO	By 2030: 70-100kWh/m2a in BaU scenario	By 2030: 0 % in BaU scenario 40-50% in Transformation scenario	n.a.
