

<p>Policy Instrument</p>	<p>Hydrogen-Contract for Difference</p>	<p>Carbon contracts and CcFDs</p>	<p>Clean hydrogen-based fuel quota</p>
<p>Potential application</p>	<p>Greening existing hydrogen production</p>	<p>Greening industrial processes req. green hydrogen (e.g. steel and chemicals)</p>	<p>Blending in aviation and maritime fuels</p>
<p>Remarks</p>	<p>Ideal for pre-existing H₂ demand with low costs for clean H₂ integration</p>	<p>Appropriate to support the development of new clean H₂-based value chains</p>	<p>Allows H₂-based fuels to compete for market demand created by the quota</p>
