

# The EU Green Deal delivery gap: EU climate and energy targets vs past and future trends

→ Fig. ES

● NECPs estimate ● 2022 ● EED 2030 target ● RED 2030 target ● GHG 2030 target

● 1990-2030 MIX scenario ● 1990-2021 ● Member State projections

Agora Energiewende (2024). Data from EC (2023a) and EC (2023b). Note: EED: Energy Efficiency Directive. RED: Renewable Energy Directive. NECPs: National Energy and Climate Plans. MIX scenario refers to the European Commission's core policy scenario underpinning the 2030 Climate target plan.
